Digital BTE Hearing Aid EP05P,Digital Programmable, Two channels

Specifications

1) 2 fully digital programmable channels
2) WDRC with fully automatic volume control
3) Linear to WDRC compression optional
4) Acoustic feedback suppression
5) Two Independent memories
6) Open DSP platform and optimum target gain display
7) MPO control
8) Memory switch and low battery indicator
9) Low battery consumption
10) Latest electric magnetic technology adopted for phone compatibility
11) Automatic noise control function, good for various noisy environments
12) Super power available for moderate to profound hearing losses
13) Telecoil input (only for MY675)
