B306U Digital and Programmable Hearing Aid with 8 channels

Specifications:

Fitting Range ≤125dB

1. DDRC compression system. Top CASA noise manager system.
2. New 5th generation intelligent multi-modal feedback handing system
3. Transient loud sound blocking system.
4. Wind noise manager.
5. Iscene detect environmental analysis system.
6. Intelligent dynamic directional transformation(Optional).
7. High precision DDFS.
8. Speech enhancer system.
9. Automatic telephone switch.
10. Innovation tech for open ear.
11. Adaptive audio input system.
12. Real-time data tracking&storage system iLOG5.0.
13. Intelligent real-time spectrum analysis presentation system.
14. High precision personalized fitting.
15. Intelligent volume learning function.
16. Humanized power saving tech.
17. DFC function.
18. Program
19. Power-on delay.
20. Low-power indicator.
21. Personalized warning tone.
