Features

D2103 is one digital thermometer with features of high accuracy and stability, elegant appearance, ect. It is widely applied to fields of incubation, food-processing and storage for temperature measurement.

Specifications

1. Case: ABS,70x45x18mm
2. Protection class: IP40
3. Ambient environment: -10~60C
4. Storage environment: -20~70C
5. Display: LCD,height 10mm
6. Temperature range: -40~125C/F
7. Update rate: 2 seconds
8. Accuracy: +/-0.2C@ 25C-45C
9. Resolution: 0.1
10. Sensor: NTC,800mm
11. Probe: D4x20mm Power: battery(1 year)
