

Digital BTE Hearing Aid EP05P,Digital Programmable, Two channels

Specifications

- 1) 2 fully digital programmable channels
- 2) WDRC with fully automatic volume control
- 3) Linear to WDRC compression optional
- 4) Acoustic feedback suppression
- 5) Two Independent memories
- 6) Open DSP platform and optimum target gain display
- 7) MPO control
- 8) Memory switch and low battery indicator
- 9) Low battery consumption
- 10) Latest electric magnetic technology adopted for phone compatibility
- 11) Automatic noise control function, good for various noisy environments
- 12) Super power available for moderate to profound hearing losses
- 13) Telecoil input (only for MY675)
