REF413

DESCRIPTION

The REF413 is a portable refractometer used for measuring the refractive index of liquids and solids.

FEATURES

- Temperature range: -50°C to 50°C
- Temperature range: -40°C to 100°C
- Weight: 1.15-1.30KG / L
- Resolution: 10°C
- Accuracy: 5°C
- Resolution: 0.01 / L
- REF413 includes a system compensation for 10°C to 30°C

TECHNICAL SPECIFICATIONS

Dimensions: 26x40x170mm 20mm
 CTN Dimensions: 42X23X25cm 5.0mm
 Weight: 5.5 kg

TERMS AND CONDITIONS

All transactions are handled through Escrow.com
 All payments are in US Dollars
