REF415

Features

REF415 is a digital refractometer with a built-in LCD display and a temperature compensation system. It is designed for accurate measurement of refractive index and density of various liquids.

Specifications

- Temperature range: -50°C to 100°C
- Temperature range: -60°F to 212°F
- Refractive index range: 1.100 to 1.400 / L
- Resolution: 0.0001
- Temperature resolution: 0.1°C
- Temperature resolution: 1.0°F
- Density resolution: 0.01 g/cm³

The REF415 includes a 30°C temperature compensation system. Compensation range: 10°C.

Dimensions

Dimensions: 26x40x170mm 20g / CTN
CTN dimensions: 42X23X25cm NetWeight: 5.0kg
GrossWeight: 5.5kg

Warranty

3 years
