

CIC 11 10A High Quality Hearing aids

Specifications

- 1)2 channeled manual control fully digital technology
- 2)10-band sound control
- 3)Wide Dynamic Range Compression
- 4)10 digital fine-tune switches optional
- 5)Low/High frequency adjustment,
- 6)Knee-point adjustment of low/high frequency,
- 7)Compression ratio adjustment of low/high frequency
- 8)MPO adjustment,
- 9)Feedback control adjustment,
- 10)Low frequency profoundly cut adjustment
- 11)Gain control
- 12)built-in' microphone noise compression,
- 13)NAL algorithm
- 14)Hifi signal processing technology
- 15)Low battery consumption,
