

DDS-17 Bench-top Conductivity Meter is a section outward appearance is fine and is succinct, survey stable and accurate meter.

Technical Specification

1. Measuring Range: 0~1.999x10⁵us/cm
2. Accuracy: $\leq \pm 1.5\% F.S \pm 1$ digits
3. Temperature Compensation: 15~35°C
- 4 Power Supply: 220V
5. Environment: Temperature: 5~40°C Humidity < 85%
6. Dimensions: 240mm×158mm×100mm
7. Weight: 950g
8. measuring range frequency conductance(uS/cm)

x1	low area	0~1.999
x10	low area	0~19.99
x102	high area	0~199.9
x103	high area	0~1999
x104	high area	0~19990
