

Applications

The EM4806 mini moisture meter features easy portability, fast operation and accuracy. Easy one-touch operation.

It can be used to measure the moisture level in sawn timber (also cardboard, paper) and hardened materials (plaster, concrete and mortar). It displays the moisture level in the material straightaway.

In addition, EM4806 can measure the ambient temperature

Specifications

- Digital LCD display
- Mini size, portable
- Easy portability, fast operation and accuracy
- 2 pin steel probe
- Low battery indication
- Automatic power-Off feature
- Easy one-touch operation
- °C/°F unit exchange
- Range of wood: 6 ~ 42%
- Range of building material: 0.2 ~ 2.0%
- Environment Temperature: 0 ~ 40°C/32 ~ 99°F
- Battery: 1.5V, LR44 or equivalent, 4 pieces
- wood moisture meter humidity tester
