

Portable Grain Moisture Meter LDS-1G

Moisture Meter , Moisture Tester, Grain Moisture Meter, Moisture Analyzer.

Characteristic

1. Fast and accurate.
2. Have AC and DC power.
3. White LED side backlight.
4. Multipoint calibration, error correction.
5. Calculate average data, test volume weight.
6. Automatic weighing and temperature compensating.
7. Data output and Calibration parameters download update.
8. Low Energy Consumption.
9. Auto and manual Power-Off.

Specifications

1. Measuring object: Cereal, Mai Lei, vegetable seed, soybean, vegetables seed, corn, feed, flour and so on nonmetallic granulated matter
2. Temperature compensation: Internally installed sensistor automatic compensation
3. Test accurate: $\leq \pm 0.5$
4. Repeat accurate: ≤ 0.2
5. Test range: 3~35%
6. Test time: $\leq 10s$
7. Use temperature: 0~40°C
8. Net weight: 830g
9. Power resource: 9V DC Power or NO.5 battery
10. Display: Backlight LCD
11. Interface: RS232 standard interface
12. Accessory: charging base, funnel, volumeweight sample bucket, funnel with blade, 220V AC supply adapter, four NO.5 battery, correcting-weight, cleaning brush
