

Six in One Multi-parameter Water Quality Meter/Water Quality Analysis /Water Quality Monitor PHT-028

This indicator combines 6 meters into one easy to use wall mounting continuous monitor. Featuring a large, dual-level, back-lit LCD display the meter can display the EC/TDS/CF of your solution together with the choice of either pH, temperature or Oxidation-Reduction Potential (ORP).

Precision pH monitor immediately detects changes in solution pH. With a 6 V DC power supply included with the meter (also included rechargeable battery).It is with BNC composite electrode, around the world to facilitate the replacement of electrodes, used.

Specifications

1. Measuring range :

PH: 0.00~14.00 PH

°C: -50°C~70°C (-58°F~158°F)

EC: 0.00~19.99EC

CF: 0.0~199CF

TDS: 10~19990ppm

mv: 0~±1999mV

2. Resolution:

PH: 0.01PH

°C: 0.1°C

EC: 0.01EC

CF: 0.1CF

TDS: 10 ppm

mv: 1mV

3. Accuracy

PH: ±0.1 PH

°C: ±1.0°C

EC,CF,TDS: ±2%F.S

mv: ±0.1%F·S±1digit

4. Automatic Temperature Compensation 0°C~50°C

5. Operating Temperature : 0°C~50°C

6. Power Supply: DC 6V(include), with adaptor
