Specification:

Device Dimension: 16 * 12 * 8cm

Weight: 0.4kg

LCD size: 3.5 inch TFT LCD 4: 3

LCD Definition: QVGA (320x240)

Lightness: 250cd / M

Magnification range: 2x-32x

LED Illumination: 3 Level Manual Control

Working time: 3 ~ 5 hours

View Mode: 4 models

Battery capacity: 1650 ~ 1700mAh

Input voltage: 110V ~ 240V

Charging Time: 3.5 ~ -4 hours

Function: Freeze / Brightness adjustment / Auto sleep / Sound / Controlled camera light / Preferences saves real-time
