

Infrared Thermometer Laser:-25~960°C(-13~1,760°F)

White backlight LCD. D:S=30:1

Auto-data hold and auto-turn off (Auto turn off after 15sec when release the button).

A great many of emissivity symbol.

Use abroad: Can used for food, safety-inspect  
fire inspect, power vehicle and diesel engine,  
plastic factory etc.

Can select °C/°F.

#### TECHNOLOGY SPECIFICATIONS

Resolution: 0.2°C(0.4°F)

Measuring range: -25~960°C(-13~1,760°F)

Response time: 0.5sec

Spectral response: 6~14μm

Emissivity: 0.99/0.95/0.89/0.85/0.79/0.75

Battery: one 9V battery

Measuring precision: -25~960°C,  $\pm(1.5\%+1^{\circ}\text{C})$   
-13~1,760°F,  $\pm(1.5\%+1^{\circ}\text{F})$

Ambient operating range: 0~40°C(32~104°F)

Relative humidity: 10~80%RH
