

REF401

REF401

REF401 is a handheld refractometer used for measuring the refractive index of liquids. It features a built-in temperature sensor for automatic temperature compensation.

Specifications

Temperature range: -60°C to 32°F
 Refractive index range: 1.15 to 1.30 / L
 Temperature resolution: 10°F
 Refractive index resolution: 0.01 / L

REF401 includes a 30°C system compensation for 10°C accuracy.

Dimensions

Dimensions: 26x40x170mm
 20 / CTN
 CTN Dimensions: 42X23X25cm
 Net Weight: 5.0kg
 Gross Weight: 5.5kg

Ordering

Ordering information and contact details for the Refractometer.

Notes

Additional notes or instructions regarding the instrument's use.

Warranty

Warranty information for the Refractometer.
