

REF402

REF402

REF402 is a handheld refractometer used for measuring the refractive index of liquids. It features a built-in temperature sensor for automatic temperature compensation. The device is compact and easy to use, making it suitable for laboratory and field applications.

Specifications

- Temperature range: -50 to 0°C
- Refractive index range: 1.15 to 1.30
- Resolution: 0.01
- Temperature compensation: ±5°C
- Accuracy: 0.01

REF402 includes a 30°C system compensation and a 10°C accuracy.

Dimensions

Dimensions: 26x40x170mm  
 CTN: 20 / CTN  
 Net Weight: 5.0g  
 Gross Weight: 5.5g

Shipping

Shipping is handled via Escrow.com. The item is shipped in a secure, padded container to ensure safe delivery.

Warranty

The product is covered by a 12-month warranty against manufacturing defects.

Notes

Please refer to the user manual for detailed operating instructions.
