

Features

1. Infrared Thermometer Laser:-25~1000°C
2. White backlight LCD. D:S=30:1
3. Auto-data hold and auto-turn off (Auto turn off after 15sec when release the button).
5. A great many of emissivity symbol.
6. Use abroad: Can used for food, safety-inspect
7. fire inspect, power vehicle and diesel engine,
8. plastic factory etc.
9. Can select °C/°F.

Technology Specifications

1. Resolution: 0.2°C(0.4°F)
2. Measuring range: -25~1000°C
3. Response time: 0.5sec
4. Spectral response: 6~14μm
5. Emissivity: 0.99/0.95/0.89/0.85/0.79/0.75
6. Battery: one 9V battery
7. Measuring precision: -25~960°C, $\pm(1.5\%+1^{\circ}\text{C})$
-13~1,760°F, $\pm(1.5\%+1^{\circ}\text{F})$
8. Ambient operating range: 0~40°C(32~104°F)
9. Relative humidity: 10~80%RH
