Digital Thermostat for Water-chiller Aquarium ATC-300

Features

1. ATC-300 especially suitable for aquarium industry.
2. The panel of ATC-300 is elegant and smart which separates from Control Box.
3. The panel can be easily fixed on Aquarium Box or any other places.
4. ATC-300 is really a new and practical product.
5. One channel heating control☐ One channel timing control
6. Alarm when exceeding the temperature limit☐ Alarm when sensor error
7. Electricity auto cut-off when out of water
8. Size:
   Panel size:119.9×30.5(mm)
   Mouting size:119.7×30.3(mm)
   Product size:119.9×30.5×16.9(mm)

Technical Parameters

1. Power supply:220VAC
2. Power consumption: ≤ 3 W
3. Temperature controlling range :16-+36°C
4. Temperature measuring range:0-+50°C
5. Resolution: 0.1
6. Accuracy: ± 1°C
7. Timing cycle :24 hours
8. Controlling load: ≤ 1200W/220V
9. Temperature controlling difference: 1°C
10. Alarm when exceeding temperature limit: ±2°C
11. Sensor: NTC
