

CS-3D Gold Detector Underground Gold Detector,Ground [Metal Detector](#)

Feature:

When you you detecting,keep 10-15cm move above ground,don't distance a lot ,or will affect the depth you detecting.

1)detecting with ground balance

This is way avoid distraction from mineral substance ,it is the best way detecting .with this way ,when plate above target instrument will continue ring.the pointer will deflection

How to adjust the sensitivity

Turn the level to ground balance, Up plate 1.5m from ground,Press the key ,turn on power and turn on critical sound,then relax the key ,Let the plate near ground about 10-15 cm,if the ring up ,up the palte and press the key ,then turn knod left a little.test again. If the voice down ,turn right .until the voice have no change when plate up and down.

2)detecting with distinguish

It can differentiate non-ferrous metal and ferrous metal in this way.and you can based on instrument and voice to choose whether the metal you need or not .but it can not avoid the effect of soil structure ,so it need to keep the distance between plate and ground ,then move slowly

Adjust the work on the following scale 2, a chunk of the non-ferrous metals to make the sound increase, a large black metal to make the sound decreased; Adjust the work on 7 above, a chunk of the non-ferrous metals to make the sound of a large decrease of the black metal to make the sound increased.

Specification :

Detection prompts sound /LED refers to the table display

Mine realization probing depth of 6 m

Detection mode to balance/means of identification

Detection frequency of 458KHZ \pm 5KHZ

Headphone frequency of 455KHZ \pm 5KHZ

Power 1W

Operating temperature 10°C to 60 ° C

Storage Temperature -28 °C ~ 65 °C

External headset features black headphones

Boot LED display LED display

Power supply 12V rechargeable battery

Product Net Weight 3.7KG

Product size 30*30*117CM

Packaging carton

Standard Carton Volume 1

Standard Carton Size 51.5 * 33.5 * 12.5CM

Standard Carton Gross Weight 3.9KG

Payment Methods:

We accept TT bank wire transfer, Western Union, Paypal and escrow payment offered by Alipay Escrow and Escrow.com.

For latter three payment methods, extra charges shall be applied.

Shipping Methods:

To be shipped by express mail, by air or by sea based on customer's request and weight/volume of goods.

Warranty:

We provide a limited quality warranty of 12 months for the items sold dating from their delivery date.
