

DHS-10 Digital Halogen Moisture Meter, Table Halogen Moisture Meter

Specifications

The main technical parameter

Capacity : 50 g

Accuracy grade: Second level

The actual scale dividing values: 0.01g

Calibration of scale diving values:10mg

Moisture determination accuracy: $\pm 0.5\%$ (sample $\geq 10\text{g}$)

Moisture content determination of readability :0.02% \square 0.1%(sample $\geq 2\text{g}$)

Temperature control to adjust tolerance: $\pm 1^\circ\text{C}$

Heating temperature range: $\square 60^\circ\text{C}\square 200^\circ\text{C}$ (adjusted by 1°C)

Heating time range: 0min \square 99min(adjusted by 1min)

Analytical method: Manual, Timing, Automatic

Display parameter: Nine kinds

Moisture content determination: 0% \square 100%

Shell size: 360mm \times 215mm \times 170mm

Net weight: 4 \square 5kg
