

DM300M Portable Digital Powder Materials High-Frequency Moisture Meter

High Frequency moisture meter DM300 is used for measuring moisture content of soil, silver sand, chemical combination powder, coal powder, sugar, and other powder materials. It is applicable in chemical industry and other relevant industries.

Features:

- 1.1. It is portable, compact, easy to use and the moisture measurement readings are instant.
- 1.2. Digital display with back light gives exact and clearly reading although you stay at the somber conditions.
- 1.3. It will save time and expense by monitoring dryness and helps to prevent deterioration & decay caused by moisture whilst in storage, therefore processing will be more convenient and efficient.
- 1.4. This instrument adopted the high frequency principle based on the introduction of the most advanced technology from foreign country.
- 1.5. Manual off at any time. Auto power off after 5 minutes from last operation.
- 1.6. Data hold function. Low battery alert.

Specifications:

Display: 4 digital LCD

Measuring range: 0-80%

Temperature: 0-60°C

Humidity: 5%-90%RH

Resolution: 0.1 or 0.01

Accuracy: $\pm 0.5\%$

Power supply:

9V battery

Dimensions: 160×60×27mm

Needle: 235mm

Weight: 210g (not including batteries)

Guarantee: 1 year
