

DM300R Portable Digital Meat Moisture Meter

Features of the instrument

- 1.1. It is portable, compact, easy to use and the moisture measurement readings are instant.
- 1.2. Digital display with back light gives exact and clearly reading although you stay at the somber conditions.
- 1.3. It will save time and expense by monitoring dryness and helps to prevent deterioration & decay caused by moisture whilst in storage, therefore processing will be more convenient and efficient.
- 1.4. This instrument adopted the high frequency principle based on the introduction of the most advanced technology from foreign country.

Parameters

Measurement object poultry meat (pork, beef, lamb, chicken, etc.)

Moisture measurement range 10% to 85%

Sampling time <2s

Measurement error in the range 70 ~ 78% \leq 1.0%

Repeatability in the range 70 ~ 78% \leq 0.5%

Supply Voltage 9V (6F22 battery stack 1)

Power consumption about 45mW

Instrument Dimension about 180 * 50 * 28mm

Display 3 LCD (with back light)

Operating temperature -5~60 °C

Operating Humidity \square 90% RH
