

Portable pH meter KL012

Key Features:

Large-screen, high resolution and accuracy, reading convenient, fast and accurate. Measuring accurate, simple, rugged and durable, Economical and practical, fully in line with a wide range of industries need to test. The manual 2 point through trimmer to ensure the accuracy of measurement data. BNC with the composite electrode and 9 V battery folded, around the world to facilitate the replacement of batteries and electrodes. In short, a measurement a wide range of high precision, small size, the use of convenient, cheap and good products.

Specification:

Measuring range: 0.00-14.00pH

Accuracy: ± 0.05 PH

Resolution: 0.01PH

Operating temperature: 0C to 50C

Automatic Temperature Compensation: 0C to 50C

Power Supply: 1x 9V

Dimensions: 128 x 68 x 25mm

Calibration: Manual 2 point, through trimmer
