

LCD Screen Digital Temperature Anemometer GM8903 2.6 inch
Product Description

1. Measuring: Air Velocity & Air Temperature & Air Volume
2. Measuring range: Air velocity, 0-30m/s; Air temperature, 0 - 45C, 32 - 113F; Air volume, 0-999900m³/min
3. Resolution: 0.001m/s, 0.1C
4. Unit of Velocity: m/s, Ft/min, Knots, Km/hr, Mph
5. C/F Selection
6. Air temperature measuring accuracy: +-2C
7. Air velocity measuring accuracy: +-3%+-0.1dpts
8. Max/Min reading
9. Average/Current reading
10. Data hold
11. Backlight display
12. Low battery indication
13. Manual/Auto power shut off
14. USB Interface and cable
