

MD-018 measures material moisture.

Applications

Using stored material characteristic curves for wood and building materials, material moisture is shown directly in percent by weight.

Accurate wood moisture measurement with stored characteristic curves for beech, spruce, larch, oak, pine, maple.

Additional characteristic curves to locate wet points in building materials for cement screed, concrete, plaster, anhydrite screed, cement mortar, lime mortar, brick.

Specifications

1. wood moisture measuring,
2. building material moisture measuring,
3. environmental temperature measuring,
4. LCD and LED display with backlight.
6. auto power off: 25s without any operation.
7. Low battery indication.
8. Resolution wood: 0.1%(measuring range:6%-48%)
Resolution material:0.1%(measuring range: 0.1%-11.0%)
Temperature range: 0°C-50°C / (32°F-122°F)
9. battery type: LR44*3PCS
