

Inductive Moisture Meter MD918,wood / material moisture meter (non-penetration)

1. Inductive Moisture Meter, Moisture meter, Moisture tester. moisture content meter, moisture analyzer, moisture detectors
2. Make inductive measurement of the moisture content of wood using the high-frequency electromagnetic waves.10 grades of wood density available.It has the functions of setting
3. the moisture upper limit and warning.Automatic compensation for environmental temperature.

Specifications

1. Measuring Range: 4%~80%
2. Resolution: 0.5%
3. Battery: 3x1.5V AAA alkaline battery
4. Dimension: 132Lx67Wx26H(mm)
5. Box size:150mmx100mmx50mm
6. Net Weight:180g/pcs
7. Gross Weight:210 g/pcs
8. Accessries:Manual;Nylon case,Battery
