

## PH3012 LCD display portable digital PH meter

PH-3012 is a large screen rechargeable 4 LCD display with backlight, easy to read and accurately measuring PH, Simple operation, strong and durable, economical and practical, Equipped with standard BNC electrode composite. It is very convenient that to change electrode in the world, complete with various industry test needs.

### Main parameter:

Measurement Range	0.00~14.00PH
Resolution	0.01PH
Precision	±0.1PH
Temperature Compensation	0°C~50°C
Battery	DC 6V
Charging time	4h(After charging 16 hours of continuous work)
Operating Temperature	environmental temperature:0°C~50°C relative humidity (RH):<85%
Calibration mode	Manual single-point calibration
Dimensions	128mm×68mm×25mm
Weight	110g
