

- 1.1.It is portable, compact, easy to use and the moisture measurement readings are instant.
- 1.2.Digital display with back light gives exact and clear reading although you stay at the somber conditions.
- 1.3.It will save time and expense by monitoring dryness and helps to prevent deterioration & decay caused by moisture whilst in storage, therefore processing will be more convenient and efficient.
- 1.4.The moisture meter operates by electrical resistance and has automatic temperature compensation.
- 1.5.Manual off at any time .Auto power off after 5 minutes from last operation.
- 1.6.Data hold function.
- 1.7.Low battery alert.

Specification

Display:4 digital LCD

Measuring range :0-50%

Operation condition:

Temperature:0-60°C

Humidity:5%-90%RH

Resolution:0.1

Accuracy:± 2%n(Non- saturation condition)

Power supply:4x1.5 AAA size (UM-4) battery

Dimensions:Main Unit:140mm×60mm×22mm

Needle:280mm

Weight:210g (not including batteries)
