

Rechargeable Electronic Temperature Hygrometer Thermometer and Humidity Meter

Features:

Rechargeable Electronic temperature hygrometer
simple , intelligent ,environmental-protected

Specifications:

1. working voltage 3.0v, very lower power consumption
2. 12/24 hour system exchange
3. the time for opening 0:00. alarm time 0:00
4. calendar range: 2001-2099 year (the opening display year 2006/01/01)
5. 2 minutes alarming mode and 8 minutes snoozing mode function
6. approximate 8 seconds backlight function
7. every day maximum temperature and humidity data recording function
8. C/F temperature display exchange
9. temperature range: -9.9~+60 degree C (14.2~+140 degree F), temperature display tolerance: ± 0.1 degree
10. humidity display range: 20%~99%RH, humidity precision: $\pm 5\%$ RH
