Features

1. NonContact Infrared Thermometer Laser: -25~400°C(-13~752℉)
2. Noncontact measuring.
3. Inside laser aimer.
4. White backlight LCD.
5. D:S=10:1
6. Auto-data hold and auto-turn off (Auto turn
7. off after 15sec. when release the button).
8. A great many of emissivity symbol.
9. Use abroad: can used for food, safety-inspect,fire inspect, power vehicle and diesel engine, plastic factory etc.
10. Can select ℃/℉.

Technology Specifictions

1. Resolution: 1 ℃(2℉)
2. Measuring range: -25~400°C(-13~752℉)
3. Response time: 0.5sec
4. Spectral response: 8~14μm
5. Emissivity: 0.95
6. Battery: one 9V battery
7. Measuring precision: -25~400℃, ±(2%+1℃)
□□□□□□□□□□□-13~752℉, ±(2%+1℉)
8. Ambient operating range: -10~40℃(14~104℉)
9. Relative humidity: 10~80%RH
